Great Dishwasher for the Price

Review 1
Vote 1

I've had this dishwasher for over a month and am pretty happy with it overall. It does great washing the dishes, even the ones that have stuck-on food. The 1-Hour wash cycle makes it highly efficient. My 1 and only gripe is either I don't think the heated drying time is long enough

or there's too much humidity during the drying process because my cups never get completely dry. Aside from that, I would highly recommend this appliance!

Great Dishwasher

We purchased this dishwasher after much research. It is exactly what we were looking for. Cleans and dries dishes well. I leave the door open for about an hour after the cycle ends to make sure the dishes and tub dry thoroughly.

so quiet

I bought my DW in May when I purchased my new house. I love how quiet it is but sometimes I have to go make sure I turned it on thats how quiet it is. I would give it 5 stars but it doesn't dry all the time but I have to call and schedule an appointment to have it looked at so its my fault.

Great machine, small footprint and packs a punch!

Great machine! Small but quiet and packs a punch! This machine was a super duper upgrade from the outdated machine we used to have. I really like the simple display and ease of use. No way anyone can mess the dish cycles up.

Just what I was looking for.

I wanted a good reliable dishwasher. I did not want, or need all the bells and whistles that seem to be on everything these days. So far this hits the sweet spot.

Sparkling clean!

We purchased this about a month ago! Our expectations were good but this dish washer has exceeded in every aspect. We needed something functional but not real expensive! We noticed the dishes come out very clean and sanitary an we like the shorter cycle. Thank you !
