GLASS CRAFT®  
DOOR COMPANY

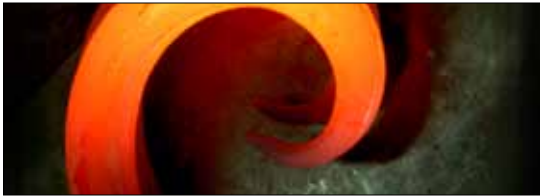

### About GlassCraft®

For more than 35 years we have focused on our customers. In 1977 the GlassCraft Door Company started a small retail store in Houston, Texas with the guiding principles of Quality and Value. Building from these core values GlassCraft Door Company has grown into the #1 hardwood entry door company in America.

From our 180,000 square foot manufacturing facility in Houston, Texas our teams of dedicated artisans, designers and master craftsmen have created a selection of the most beautiful doors, decorative glass windows and entryways available. Choose from our hundreds of standard door and decorative glass products or allow our custom department to create the door or window of your dreams. Our dedication to excellence is built into each product and continues with industry leading customer service and product warranties.

## The Features & Benefits

### Fast Ship Program

All Standard door sizes and designs are in stock and available for immediate delivery.

### Built-In Drainage System

Sloped door panel design with weep hole system to allow rain water to drain to the exterior away from the glass panel and door.

### Composite Threshold

Factory installed 100% composite adjustable threshold is built-in to eliminate rotting or warping.

### Easy Install System

Heavy duty no-twist 4 5/8" and 6 5/8" frame. Online Video Installation Guide.

### Custom Design Options

Let our custom department help build a Buffalo Forge unit to match your custom design.

### 5 Year Limited Warranty

*Square Top Double Door — Barcelona — Antique Bronze — Clear Glass*

*Square Top Double Door — Milano  
Antique Bronze — Clear Glass*

- Each Buffalo Forge iron door is delivered as a ready-to-install, weather-proof entry system including insulated safety glass, vinyl weather-strip system, and composite threshold. Doors accept standard door hardware to eliminate the need for custom or hard-to-find locks and latches.
- The Buffalo Forge iron grilles are designed within a unique face-mounted frame system, providing greater architectural definition to the iron grille designs.
- Factory mounted flush bolts provide secure locking of the passive door. Achieve maximum security while maintaining a clean look without the need for surface mounted hardware.
- Each unit is pre-assembled and installed into a test wall before it is packaged for shipment. Each Buffalo Forge unit comes with a 5 year Limited Warranty.
- Glass panels open inwards to the home to allow easy access to clean both sides of the glass. You can open the glass panel and leave the door locked and secure while talking through the decorative grille or allow the air to ventilate through the open glass panel into your home.

## Custom Wine Doors

Let GlassCraft® build your custom wine door. Custom units can be made to fit into any size or style of opening. If your wine room needs to be climate controlled our doors would be the perfect fit. All Buffalo Forge® units are available with full double insulated glazing panels and compression weather stripping allowing you to regulate the wine room temperature separately from the rest of the home. Wine room door units may also be ordered without glazing to give a more open look and feel to a wine room project.

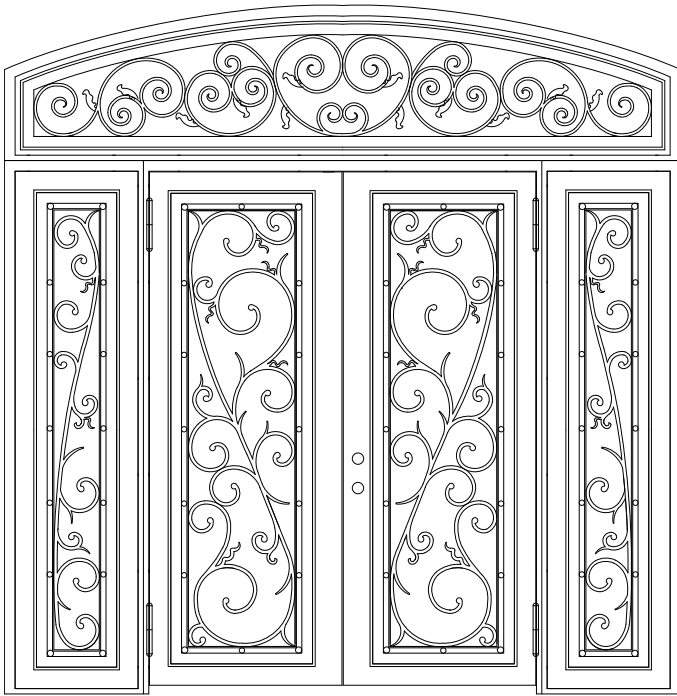

Custom wine doors are unique and can be built to your design requirements to reflect your vision and personality and to fit seamlessly with your home décor.

*Custom Vineyard Arch Top Double Door  
Antique Black – Clear Glass*

*Let GlassCraft® help make your custom dreams come true.*

Let our design team at GlassCraft help make your entry door dreams come true. Our dedicated design team will work with you to help develop your idea into a truly stunning entry door. If you already have a design, we can build a Buffalo Forge entry door to incorporate your design and bring your dream entry door to life.

### Custom Design Capabilities

If you need help to design something custom to fit your home's individual style and design, we can help. Our design team will take you step by step through the complete design and build process to make sure your new entry door fits seamlessly into your home and the design reflects your vision. Our team will walk you through all aspects of your exact custom design and any limitations due to glass texture, grill designs, and unit sizes. The extensive custom design capabilities at GlassCraft include a beveled and stained glass workshop, custom ironwork and a complete custom wood millwork facility.

Call your local GlassCraft dealer or visit us online at [www.GlassCraft.com](http://www.GlassCraft.com) for more information on our custom manufacturing capabilities. You can also visit us online to see our custom design center for more ideas such as street numbers or your own personalized monogram.

### Custom Size Custom Configurations

GlassCraft can make a door to fit your requirements. If you need a large grand entryway or your door just needs to be a little smaller than one of our standard door sizes, we can build it to your perfect size. We can add sidelites or transoms to any one of our designs to continually expand the design possibilities for all of our Buffalo Forge entry doors.

**Left:** Standard Milano Double Arch Top Doors with Custom Arch Top Sidelites.

# Finish Color Options

*GlassCraft uses a three coat painting process to help protect every Buffalo Forge entry door.*

## **Step One**

Each Buffalo Forge unit is powder coated to provide the highest-level protection from environmental extremes and to protect the handmade wrought iron for years of use and enjoyment.

## **Step Two**

A hand painted faux finish is applied over the protective powder coat leaving a rich warm natural patina finish in Antique Black, Antique Bronze, or Antique Pewter to highlight the wrought iron design. Faux paint finishes will vary due to the nature of the hand-applied paint process.

## **Step Three**

The faux finish is protected from the wear and tear of daily use with a clear coat of lacquer to provide an extra layer of protection. The beauty of the faux paint finish is that the natural patina can usually be maintained or repaired easily without the need to repaint the complete door unit making Buffalo Forge a low maintenance entry door option.

Antique Black  
Finish

Antique Bronze  
Finish

Antique Pewter  
Finish

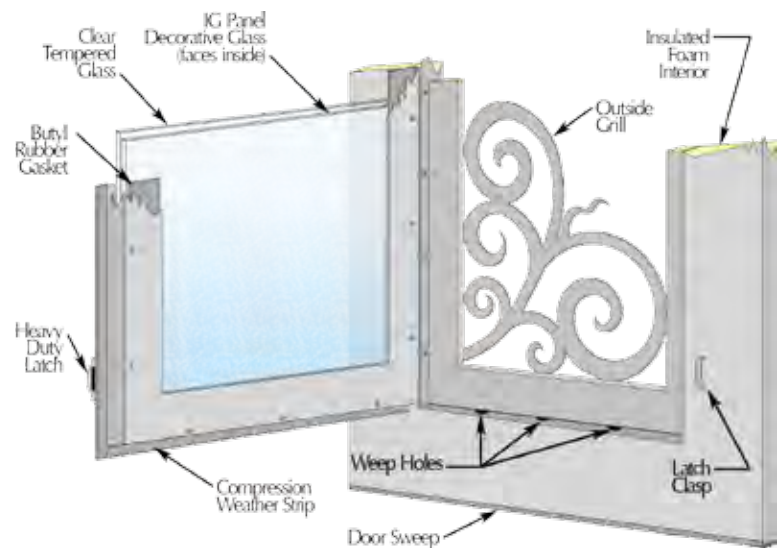

Bronze aluminum sill with all-composite substrates won't absorb water like wood and prevents the sill from rotting or warping.

## Operating Glass Panels

Operating glass panels are easy to clean, energy efficient, and engineered to provide protection for your home. GlassCraft's exclusive designs include an integrated sloped sill and weep hole system built into the glass panel and wrought iron design to allow rain water to drain to the exterior away from the door and glass frame.

Open the glass panels to easily clean the glass behind the decorative wrought iron designs. The inner glass door uses compression weather-stripping to securely seal the operating glass frame.

## Glass Textures

Clear Glass

Glue Chip Texture

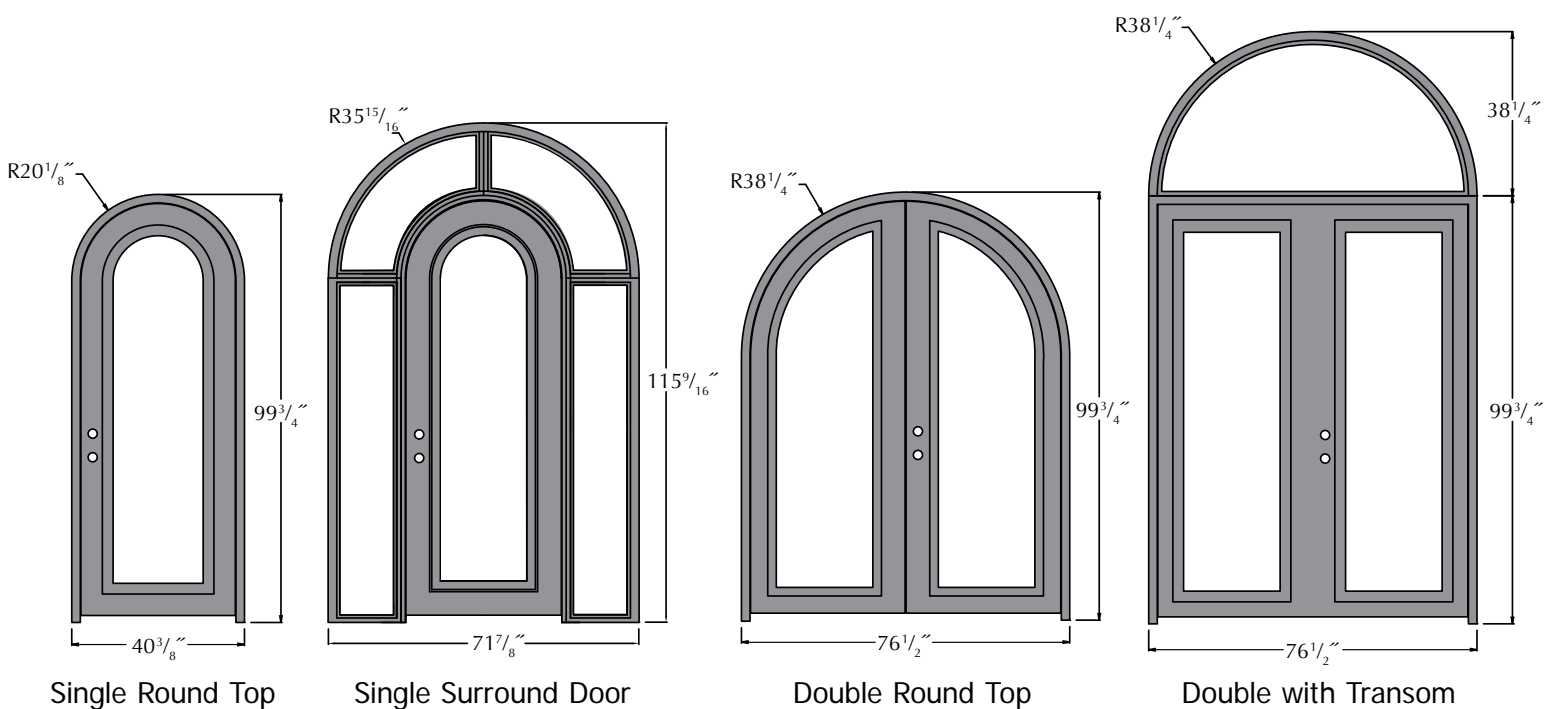

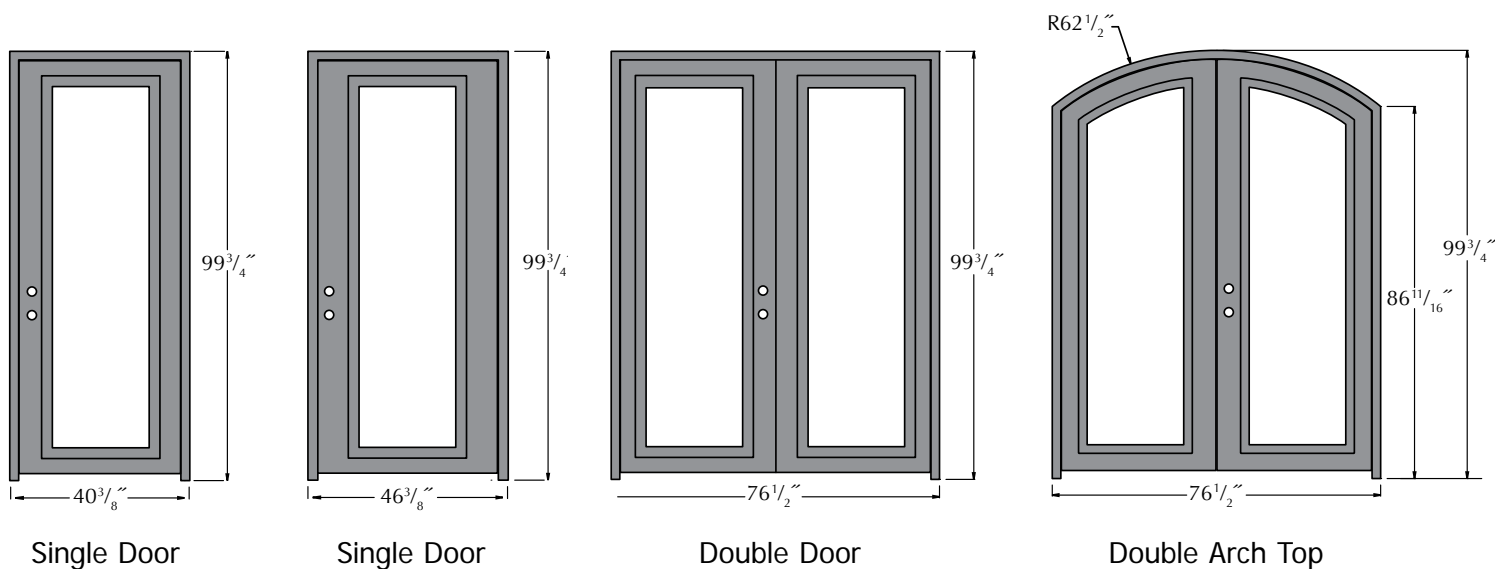

Rain Texture

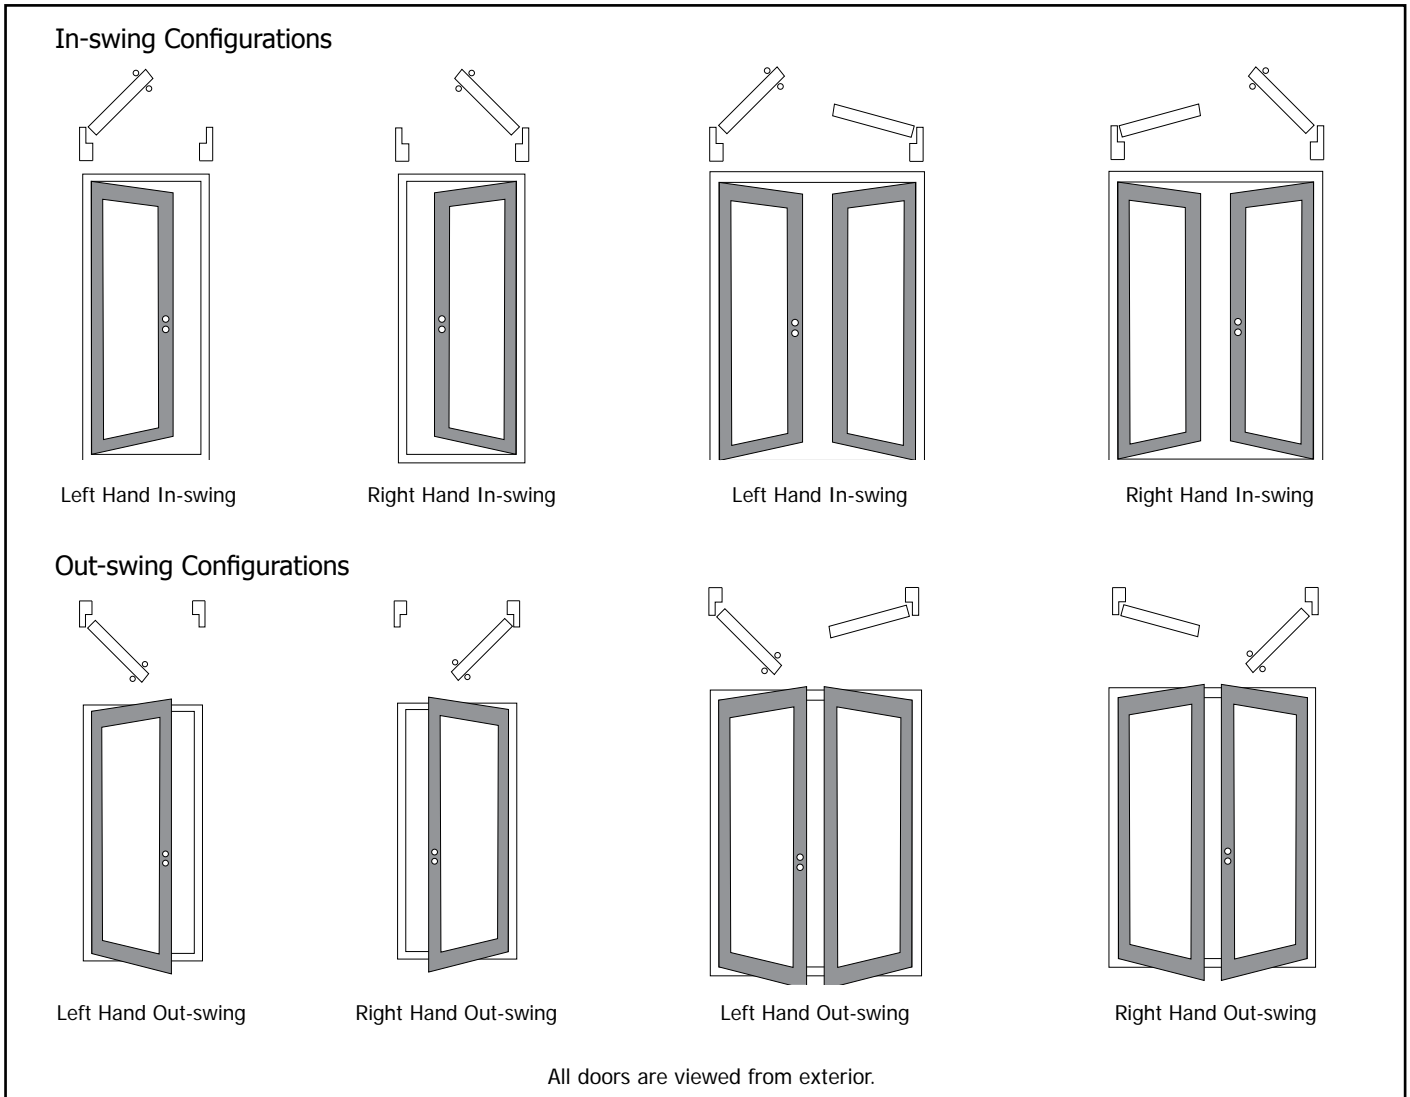

Choose from three different glass texture options to complement and highlight your decorative wrought iron entry door. Each of the three glass options allows for you to find the perfect balance between natural light, obscurity levels, and pattern texture. Glass panels feature tempered, insulated safety glass which provide a complete energy efficient choice.

# Buffalo Forge Unit Dimensions

- Dimensions shown with 2" heavy-duty no twist framing system.
- To calculate the Rough Opening add 2" to the width and 1" to the height of the unit dimensions.

## Jamb Size Options

All Buffalo Forge entryways shown in this catalog are pre-hung as assembled door units. We offer two jamb sizes, 4-5/8" wide or 6-5/8" wide to fit most construction needs.

The jamb includes pre-drilled mounting holes for easy installation of the door unit into all framing types. A full set of installation instructions and a how-to video are provided with each Buffalo Forge unit and are also available to download from our web site at [www.glasscraft.com](http://www.glasscraft.com). If needed, you can use any standard brickmold and interior casing applications with the Buffalo Forge steel frame to fit seamlessly into your home's construction and trim options.

If our standard frame size will not work, please call and talk to our custom order department to review custom jamb options for your project.

## Pre-hang Configuration Options

All standard Buffalo Forge door designs are available with In-swing or Out-swing doors and can be ordered as left-handed or right-handed units. Please refer to the chart above to specify the handing when placing your order. All doors on the handing guide are viewed from the exterior of the home. Door units may also be ordered with ADA (Americans with Disabilities Act) accessible thresholds. ADA threshold units are made to order and will require extended lead times. See page 26 & 27 for full pricing and lead time details.

*All standard doors in this catalog are in stock and available for immediate delivery.*

## Custom Orders

GlassCraft's Buffalo Forge custom price is based on your door's wrought iron design requirements and the size of the complete door unit. Please contact the custom order department or visit our Custom Design Center online to request a quote.

Any standard GlassCraft design built to a non-stock size is considered a full custom unit and will require the full custom lead-time. Our usual custom order lead-time is 8-10 weeks after final product drawings have been approved.

### ADA Threshold

All Standard Stock Buffalo Forge doors on page 26 can be ordered with an ADA 1/2" aluminum sill. This option does not guarantee that the door unit will meet all ADA requirements; please check with your local building inspectors to confirm ADA compliance.

ADA Threshold Add \$850

### All Buffalo Forge Door units include the following standard features:

4-5/8" or 6-5/8" Jamb, Threshold, Double Insulated Glass, Pre-Finished Faux Paint Finish, Standard Double Bore Lock Preparation, Lever Flush Bolts on passive doors, Weather-Stripping and Installation Bolts.

All Buffalo Forge Door panels are 1-1/2" thick, please confirm that your hardware selection will fit a 1-1/2" thick door.

GlassCraft Door Company reserves the right to change product designs and product specifications at any time for any reason and without notice. Standard lead-times may change without notice and should only be used as a guideline for placing orders.
